Garage Parrot - Diagramme de classe

Reviews
- id: int
- title: string
- content: string
- releaseDate: date
- notation: int
- userName: string

\# addReview()
\# deleteReview()
+ viewReview()

WorkshopServices
- id: int
- typeService: string
- service1: string
- service2: string
- service3: string
- service4: string
- service5: string
- service6: string

\# addService()
\# deleteService()
\# modifyService()

ServicesSchedules
- id: int
- day: string
- openMrngTime: time
- closeMrngTime: time
- openAftnTime: time
- closeAftnTime: time
- servicesClosed: bool

\# modifySchedules()
\# viewSchedules()

SalesSchedules
- id: int
- day: string
- openMrngTime: time
- closeMrngTime: time
- openAftnTime: time
- closeAftnTime: time
- salesClosed: bool

\# modifySchedules()
\# viewSchedules()

Admin
- id: int
- firstName: string
- lastName: string
- login: string
- password: password

- authenticate()
- sendEmail()
- createEmployee()
- deleteEmployee()
- viewEmployee()
- changePassword()
- changeLogin()

Employee
- id : int
- firstName: string
- lastName: string
- mail: email
- password: password

- authenticate()
- sendEmail()
- verifyUserReview()

WorkShop
+ AppointmentRequest: string

UserReview
\# message: string

User
- id: int
- firstName: string
- lastName: string
- mail: email
- phoneNbr: int

+ sendEmail()
+ sendReview()

Filter
- priceCar: int
- mileageCar: int
- yearCar: int

+ modifyValue()

UsedCar
- id: string (matricule)
- brand: string
- model: string
- power: string
- year: int
- mileage: int
- description: string
- price
- picture1
- picture2
- picture3

\# addCar()
\# modifyCar()
\# deleteCar()
+ viewCar()
+ carFilter()
